PROFESSIONAL SUMMARY

Entry-level customer service candidate with a B.Tech in Artificial Intelligence and Data Science. Experience helping customers through chat, phone, email, and WhatsApp in a chat support internship and a client-facing role in Dubai. Clear communicator who explains information simply and keeps customer records accurate. Seeking an entry-level Customer Service Executive role.

WORK EXPERIENCE

Sales Executive | Royal Citadel, Dubai, UAE | May 2026 - August 2026

- Handled client calls and inquiries daily, identifying needs and guiding each client through the account opening process
- Followed up with clients by email and WhatsApp, keeping records and client information accurate and consistent
- Resolved client questions on platform use and account opening in real time
- Explained technical topics such as trading platforms and market data in clear, non-technical language

Chat Support Intern | Sutherland Global Services (via Prompt Personnel Pvt Ltd), Chennai, India | November 2025 - December 2025

- Completed structured training in customer chat support, communication, and customer-handling procedures
- Assisted customers through chat by understanding their concerns and providing appropriate support
- Responded to customer queries professionally and guided customers toward resolving their issues
- Delivered timely, customer-oriented support throughout chat interactions

Machine Learning Intern | Eduexpose, Hyderabad, India | April 2025 - May 2025

- Cleaned and preprocessed 50,000+ records with Pandas and NumPy, supporting classification models with 91% accuracy
- Deployed machine learning workflows with Streamlit and Flask connected to SQL databases for real-time data applications
- Improved model training efficiency by 25% through feature engineering, hyperparameter tuning, and pipeline optimization

Machine Learning Intern | Verzeo | November 2022 - December 2022

- Completed a Machine Learning with Python internship program covering supervised and unsupervised learning, regression, classification, and clustering
- Implemented algorithms such as K-Nearest Neighbors (K-NN), Support Vector Machines (SVM), K-Means, and Random Forest using scikit-learn

SKILLS

- **Customer Service:** Customer Support, Chat Support, Client Calls, Email and WhatsApp Follow-Up, Client Communication, Problem-Solving
- **Records and Documentation:** Record Keeping, Documentation, Data Accuracy, Report Preparation
- **Computer Skills:** Microsoft Excel, Power BI, SQL, Python
- **Professional:** Team Leadership, Time Management, Attention to Detail

PROJECTS

AI-Based Grayscale Image Colorization Web Application | Academic Project | May 2025

- Developed a Python web application that automatically colorizes grayscale images using OpenCV, NumPy, and a pretrained Caffe-based deep neural network
- Integrated a Flask web interface for image submission and visualization of colorized results
- Explored Generative Adversarial Network (GAN) colorization methods for realistic image reconstruction and enhancement

Outdoor Air Purification Using IoT (Team Leader, Team of 3) | B.Tech Design Project | June 2024

- Led a team of 3 and originated the concept for an IoT-based outdoor air quality monitoring and purification system
- Programmed an Arduino Uno in C/C++ to read PM2.5, temperature, and humidity sensors and switch a purification fan on when PM2.5 exceeds 50 micrograms per cubic meter
- Documented the system in a 38-page project report with architecture, data flow, use case, activity, sequence, and state diagrams

EDUCATION

Bachelor of Technology (B.Tech) in Artificial Intelligence and Data Science | K. Ramakrishnan College of Technology, Tiruchirappalli, India | 2021 - 2025
CGPA: 7.31/10
Relevant Coursework: Cloud Computing, Computer Networks, Database Management Systems, Big Data Analytics, Machine Learning

CERTIFICATIONS

- Excel with AI Certification
- SQL | Skillrack
- Masters in Coding: Data Analysis, Networking, Cloud Computing and Cyber Security | KaaShiv InfoTech, Chennai | February 2026
